INNOVATION STARTS IN THE LAB. RELATIONSHIPS GROW AROUND THE TABLE. OUR CONVIVIAL CODE.

WE STAY CURIOUS.

We ask, listen, and learn — because great chemistry starts with good questions.

WE CREATE WITH CARE.

Innovation means thinking sustainably — for people and planet.

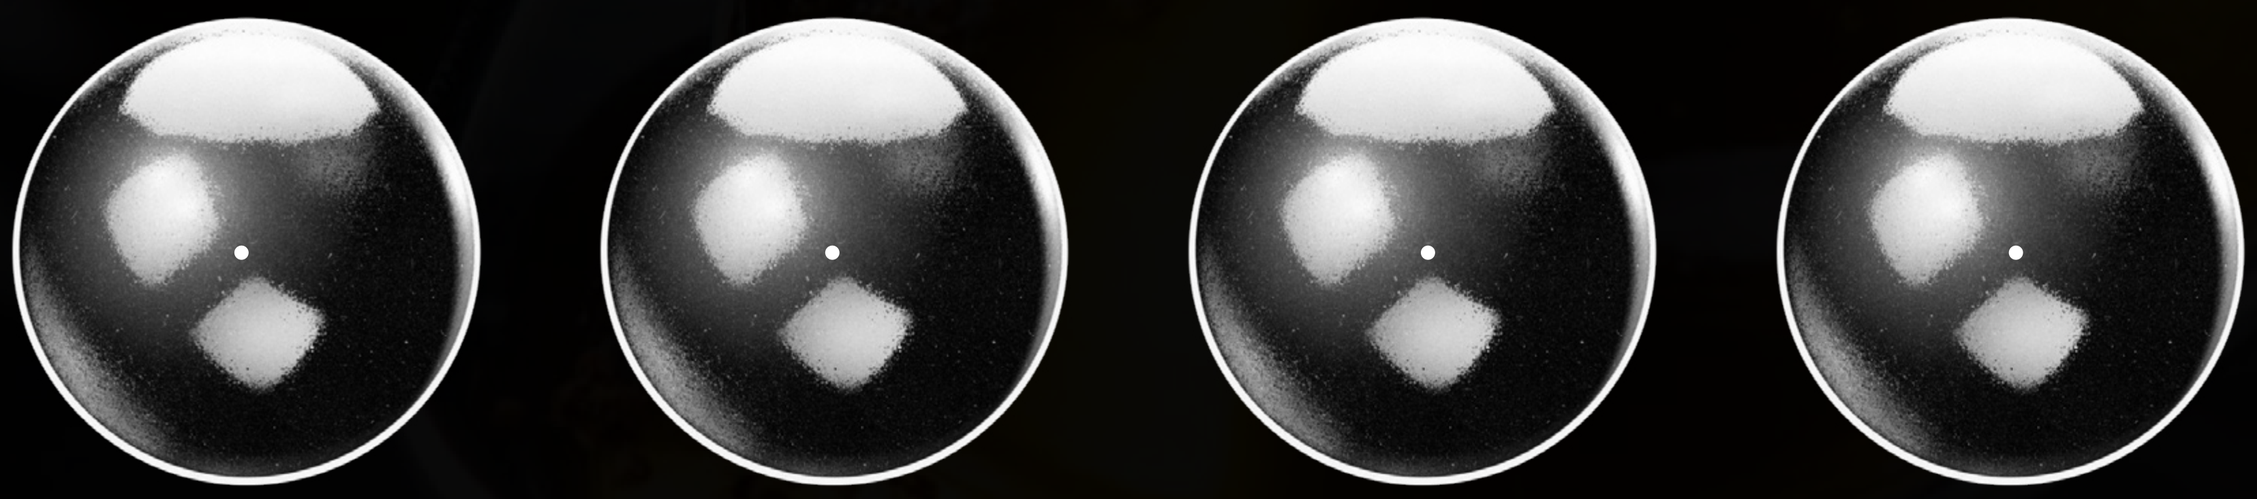

WE STAY HUMAN.

Empathy, integrity, and warmth guide everything we do.

WE BELIEVE IN CONVIVIALITY.

Sharing time together is our ritual. Ideas spark around the table.
